- **Meeting Topic(s)/Title of Meeting or Event:** Donlin Gold Project Draft EIS - NEPA Review Comments and Rating, and Clean Water Act Section 404(q) Elevation
- **Program Office:** Ecosystems, Tribal and Public Affairs (ETPA)
- **Urgency/Priority (high, medium, low):** High
- **Purpose of the meeting (informational, decisional, pre-briefing for external meeting, etc):** Decisional
- **If the meeting will involve external participants, what will the RA/DRA's role be in the event (site visit, presenter, site tour, listening session, etc):** No external participants
- **Brief background information/details:** The Draft EIS for the Donlin Gold Project evaluates the impacts associated with an open pit hard rock gold mine, transportation infrastructure, and a natural gas pipeline. The proposed project may result in substantial impacts to wetlands and aquatic resources, subsistence activities, EJ communities, and potential exposure to contaminants. The Corps of Engineers issued a Public Notice under the CWA Section 404 concurrent with the Notice of Availability of the DEIS. There is insufficient information in the DEIS to evaluate the wetland impacts and compensatory mitigation under the CWA Section 404(b)(1) Guidelines. At this time, the Corps has not provided the EPA with any assurances that a revised PN would be issued concurrent with the Final EIS. Therefore, under the EPA/Corps CWA Section 404(q) Memorandum of Agreement, the Regional Administrator may have to notify the District Engineer that the proposed Donlin Gold Project may result in substantial and unacceptable impacts to aquatic resources of national importance.
- **Location and/or suggested travel plans if offsite:** On-site, RA's Office.
- **When would you like to have this meeting? Please indicate if there are any deadlines** Written comments on the Corps of Engineers DEIS and PN are due April 30, 2016. Preferred meeting date is April 21.
